Quality Assurance

Цели:

- Проверка на надеждността на системата за създаване на потребители.
- Проверка на сигурността на системата за вход.
- Проверка на синхронизацията на системата с 2FA.
- Проверка на надеждността на електронните подписи и проверките за тях.
- Проверка на качеството на системата за предоставяне и визуализация на обяви.
- Проверка на държанието на системата при екстремни условия.
- Проверка на синхронизация на системата с други платформи.

Quality Assurance

2) Компоненти

- Система за вход и регистрация.
- Система за електронно подписване.
- Система за 2-Factor Authentication.
- Система за управление на обяви за работа.

3) Тестови сценарии

- Регистрация на потребител.
- Подпис с годеен електронен подпис.
- Подпис с blacklisted/изтекъл електронен подпис.
- Вход с Google профил.
- И други.

**Благодарим за
вниманието!**
